EDUCATION

Hunter College, City University of New York

New York, NY

Bachelor of Arts in Computer Science

TECHNICAL SKILL

Frontend: HTML, CSS, JavaScript, TypeScript, React, Redux, Material UI, Tailwind CSS

Backend: Node.js, Express, Java, Spring Boot, Python, Flask, PostgreSQL, MySQL, MongoDB

Frameworks & Tools: Next.js, Vite, Turborepo, PNPM, Zod, Jest, Cypress, Git, Postman, Docker

Cloud & DevOps: AWS (EC2, Lambda, RDS, API Gateway), GCP (BigQuery), CI/CD, Familiar: Redis, Kubernetes

Practices: Agile, Modular design, MVC architecture, Test-Driven Development, RESTful APIs, Figma for UI/UX

AI & LLM Tools: GitHub Copilot, ChatGPT, Cursor – for debugging, code acceleration, and rapid prototyping

Certifications: AWS Academy Cloud Foundations(8/20), CodePath Cybersecurity(9/20–2/21)

PROFESSIONAL EXPERIENCE

Software Engineer Freelance

July 2025 – Present

Freelance

New York, NY

- Built a customer invoice dashboard using Next.js, PostgreSQL, and Auth.js to enable authentication, protected routes, full CRUD operations, and accessible form handling with server actions and validation | [Repo](#)
- Built a RESTful Java web application using Spring MVC and MySQL to manage user products, implementing DTOs and dynamic routing for clean API design and maintainable, modular server-side architecture | [Repo](#)
- Improving Next.js community web app with best practices and features | [HimalayanConnectNYC](#)

Software Engineering Fellow

June 2024 – May 2025

Springboard

Remote

- Completed 700+ hours of full-stack web dev training with 1:1 mentor guidance, building projects like:
- Shipped a full-stack app with Next.js and Prisma from database design to deployment | [Live App](#)
- Built a secure Dog Adoption API with token-based authentication, filtering, pagination and error handling in modular MVC architecture using Node.js, Express, and MongoDB Atlas with Mocha and Chai testing
- Developed Space Travel Planner with dynamic forms and client-side routing using React, React Router, Hooks, and React Testing Library to ensure a seamless UI experience and adherence to testing protocols
- Created an interactive Pokedex Card Game with dynamic components and a custom scoring function using React and responsive CSS Modules

Tech Operations Associate

Nov 2021 – Oct 2022

Soul Chants Music

New York, NY

- Managed site updates and production deployments via Netlify, improving reliability
- Streamlined project coordination with a custom Excel system and Asana/Basecamp, accelerating video delivery
- Automated asset and metadata tracking using Google Sheets and Apps Script reducing manual work

Data Engineer Intern

June 2019 – Aug 2019

Real Factors (acquired by 7Park Data)

Queens, NY

- Fixed map display issues by debugging polygon data in BigQuery, improving accuracy before acquisition
- Built internal reports, dashboards and documentation using Superset for faster analytics access
- Minimized query latency by optimizing BigQuery SQL with views, stored procedures, and user-defined functions

Machine Learning Research Assistant

May 2018 – Apr 2019

Hunter College

New York, NY

- Presented state-of-the-art machine translation research papers to assess feasibility and guide project direction
- Reproduced Codenn using PyTorch/TensorFlow on cloud CUDA GPUs enabling scalable training and testing
- Tuned hyperparameters, benchmarked datasets to optimize model performance in NLP pipelines

TECHNICAL PROJECT

Himalayan Connect NYC | *Full-Stack Resource Hub*

Feb 2025 – Present

- Built full-stack app with Next.js, React, TypeScript, and Prisma ORM, owning end-to-end dev lifecycle
- Implemented secure JWT auth, search/filter features, and Google Maps API for location-based resource access
- Integrated Cloudinary for image handling, storing URLs in the database for dynamic rendering | [Live App](#)
