EDUCATION

Hunter College, City University of New York

New York, NY

Bachelor of Arts in Computer Science

SKILL & CERTIFICATION

Frontend: HTML, CSS, JavaScript, TypeScript, React, Redux, Tailwind CSS, Material UI

Backend: Node.js, Express.js, Python, Java, PostgreSQL, MongoDB, BigQuery, Docker

Frameworks/Libraries: Next.js, Spring Boot, Zod, Jest, Mocha, React Testing Library, Cypress

Others: Agile, Git, Vite, AWS, REST APIs, Figma, Turborepo, CI/CD, Maven, Postman, TDD, GenAI

Certifications: CodePath Cybersecurity(2/21), Python for Everybody(UMich, 7/21), AWS Cloud Foundations(8/20)

EXPERIENCE

Software Engineer Freelance

July 2025 – Present

Freelance

New York, NY

- Improving a Next.js community web app with best practices, performance tuning, and feature enhancements
- Built a RESTful Java web application using Spring MVC and MySQL to manage user products, implementing DTOs and dynamic routing for clean API design and maintainable, modular server-side architecture | [Repo](#)

Software Engineering Fellow

June 2024 – May 2025

Springboard

Remote

- Completed 700+ hours of full-stack web dev training with 1:1 mentor guidance, building projects like:
- Built a secure Dog Adoption API with token-based authentication, filtering, pagination and error handling in modular MVC architecture using Node.js, Express, and MongoDB Atlas with Mocha and Chai testing
- Developed Space Travel Planner with dynamic forms and client-side routing using React, React Router, Hooks, and React Testing Library to ensure a seamless UI experience and adherence to testing protocols
- Created an interactive Pokedex Card Game with dynamic components and a custom scoring function using React and responsive CSS Modules

Tech Operations Associate

Nov 2021 – Oct 2022

Soul Chants Music

New York, NY

- Managed site updates and production deployments via Netlify, improving reliability
- Streamlined project coordination with a custom Excel system and Asana/Basecamp, accelerating video delivery
- Automated asset and metadata tracking using Google Sheets and Apps Script reducing manual work

Data Engineer Intern

June 2019 – Aug 2019

Real Factors (acquired by 7Park Data)

Queens, NY

- Fixed map display issues by debugging polygon data in BigQuery, improving accuracy before acquisition
- Built internal reports, dashboards and documentation using Superset for faster analytics access
- Minimized query latency by optimizing BigQuery SQL with views, stored procedures, and user-defined functions

Machine Learning Research Assistant

May 2018 – Apr 2019

Hunter College

New York, NY

- Presented state-of-the-art machine translation research papers to assess feasibility and guide project direction
- Reproduced Codenn using PyTorch/TensorFlow on cloud CUDA GPUs enabling scalable training and testing
- Tuned hyperparameters, benchmarked datasets to optimize model performance in NLP pipelines

PROJECT

Himalayan Connect NYC | *Full-Stack Resource Hub*

Feb 2025 – Present

- Built full-stack app with Next.js, React, TypeScript, and Prisma ORM, owning end-to-end dev lifecycle
- Implemented secure JWT auth, search/filter features, and Google Maps API for location-based resource access
- Integrated Cloudinary for image handling | [Live App](#)

LEADERSHIP

Organized and led an Internship and College Info for middle school and high school students in the community. Actively involved in facilitating the event and career conversations alongside a team of volunteers and panelists
