EDUCATION

Hunter College, City University of New York
Bachelor of Arts in Computer Science

New York, NY

SKILL & CERTIFICATION

Frontend: HTML, CSS, JavaScript, TypeScript, React, Redux, Tailwind CSS, Material UI

Backend: Node.js, Express.js, Python, Java, PostgreSQL, MongoDB, BigQuery, Docker

Frameworks/Libraries: Next.js, Spring Boot, Zod, Jest, Mocha, React Testing Library, Cypress

Others: Agile, Git, Vite, AWS, REST APIs, Figma, Turborepo, CI/CD, Maven, Postman, TDD, GenAI

Certifications: CodePath Cybersecurity(2/21), Python for Everybody(UMich, 7/21), AWS Cloud Foundations(8/20)

EXPERIENCE

Software Engineer Freelance

July 2025 – Present

Freelance

New York, NY

- Improving a Next.js community web app with best practices, performance tuning, and feature enhancements
- Built a RESTful Java app with Spring MVC and MySQL implementing DTOs and dynamic routing | Repo

Software Engineering Fellow

June 2024 – May 2025

Springboard

Remote

- Completed 700+ hours of full-stack web dev training with 1:1 mentor guidance, building projects like:
- Shipped a full-stack app with Next.js and Prisma from database design to deployment | Live App
- Built a secure Dog Adoption API with token-based authentication, filtering, pagination and error handling in modular MVC architecture using Node.js, Express, and MongoDB Atlas with Mocha and Chai testing
- Developed Space Travel Planner with dynamic forms and client-side routing using React, React Router, Hooks, and React Testing Library to ensure a seamless UI experience and adherence to testing protocols
- Created an interactive Pokedex Card Game with dynamic components and a custom scoring function using React and responsive CSS Modules

Tech Operations Associate

Nov 2021 – Oct 2022

Soul Chants Music

New York, NY

- Managed site updates and production deployments via Netlify, improving reliability
- Streamlined project coordination with a custom Excel system and Asana/Basecamp, accelerating video delivery
- Automated asset and metadata tracking using Google Sheets and Apps Script reducing manual work

Data Engineer Intern

June 2019 – Aug 2019

Real Factors (acquired by 7Park Data)

Queens, NY

- Fixed map display issues by debugging polygon data in BigQuery, improving accuracy before acquisition
- Built internal reports, dashboards and documentation using Superset for faster analytics access
- Minimized query latency by optimizing BigQuery SQL with views, stored procedures, and user-defined functions

Machine Learning Research Assistant

May 2018 – Apr 2019

Hunter College

New York, NY

- Presented state-of-the-art machine translation research papers to assess feasibility and guide project direction
- Reproduced Codenn using PyTorch/TensorFlow on cloud CUDA GPUs enabling scalable training and testing
- Tuned hyperparameters, benchmarked datasets to optimize model performance in NLP pipelines

PROJECT

Himalayan Connect NYC | *Full-Stack Resource Hub*

Feb 2025 – Present

- Built full-stack app with Next.js, React, TypeScript, and Prisma ORM, owning end-to-end dev lifecycle
- Implemented secure JWT auth, search/filter features, and Google Maps API for location-based resource access
- Integrated Cloudinary for image handling | Live App

LEADERSHIP

Organized and led an Internship and College Info for middle school and high school students in the community. Actively involved in facilitating the event and career conversations alongside a team of volunteers and panelists
